Chorus;

Am F G

Am F G Am

F G
Others flew to get around,
F G
And we can't be sure if they made any sound.

Chorus

They could eat meat or vegetation,
They all laid eggs to swell their population.
They were covered with scales, some had feathers,
Their brains we're that big so they weren't that clever.

Chorus

Dinosaurs as tall as a house.
Some of them as small as a mouse.
The nearest thing to dinosaurs we have now are birds.
And if you see their chicks, it's not so absurd.

Chorus

Very soon they became extinct,
Many believe that this was linked
To a meteorite that cut out the light
Which meant the dinosaurs died over night.

Chorus
