Chorus

Everything's moving constantly.
Held in place by gravity.
That's a force that pulls things around.
And makes objects fall to the ground.

The planets and sun make a solar system.
In our Galaxy there is more than just this one.
Our Galaxy I should say,
Is called 'the milky way.'

We can all be superstars we can save the earth

C G D7
Reduce, Reuse, Recycle for all you're worth.

If you're riding in a car, on a trip that isn't far.
Well, you could.... Just take a walk, take a walk.
And exercising on your wii uses electricity.
Well, you could.... Just take a walk, take a walk.

CHORUS

Em Am
Now here's a little tip to tell everyone you meet.

Em D7
Always turn the tap off, when you brush your teeth.

Em Am
Used plastic brushes stay in the earth for years.

Em D7
But bamboo is sustainable and quickly disappears.

If you've drunk a can of pop, and on the floor, you let it drop.
Well, you could,.....Recycle it! Recycle it!
And if your batteries and your tins just get dumped in the bin
Well, you could,.....Recycle it! Recycle it!

CHORUS

Em
And we're cutting down the trees, our plastic's choking up the seas.

Am Bm
But you could find a new greener you.

Em
We've got floods from too much rain, and planet Earth's in pain.

Am Bm
But you could show everyone what to do.

CHORUS
